

Revisions: *Victory for the SAT® Test, 13th Edition*

The Cambridge Victory publications involve the collaborative effort of skilled test preparation writers, experienced educators, and trained editors to produce a product that effectively prepares students for test day. We work hard to create accurate, error-free materials, but occasionally we make mistakes. Please see the corrections below and notify your students of these changes when you present this item in class:

Page	For	Read
22, Student Text	Anatomy #4	4. According to the graph, which choice best supports the author’s claim that prohibition was unsuccessful in stopping the consumption of alcohol?
421, Student Text	Practice Test, Section 4, #15	15. At the Mane Event Salon, Estrella charges a fee of \$22 for a basic haircut plus \$3 per 10 minutes of additional styling, rounded up to the nearest 10 minutes. On Monday, Estrella has x basic haircut appointments, and half of them each include a charge for y additional minutes of styling. Which of the following expressions could be used to determine Estrella’s total charges for basic haircut appointments, including additional styling, on Monday? A) $22x + \frac{3xy}{2}$ B) $22y + \frac{3xy}{2}$ C) $22x + \frac{3xy}{20}$ D) $22y + \frac{3x}{20}$
234, Teacher’s Guide	Lesson 1, #15	15. Ten years ago, the United States imported ten times as much French wine as Italian wine, but today Americans are drinking more <u>of it</u> . A) NO CHANGE B) of them C) French wine D) Italian wine

238, Teacher’s Guide Pronouns Must Have Proper Case
