Engaged Students are Successful Students!

TUTOR⁺nowTM program provides...

On Demand Tutoring and Academic Support

Learning Motivation and Career Counselling

Assessments and Reports

Targeted Instructional Plans

Test Preparation

Social and Emotional Learning Strategies

TESTIMONIALS

"We transitioned the classes to an online format this past spring. We had a very positive experience with having a Cambridge instructor provide the lessons using WebEx and continued the format for our summer program. We utilized the online diagnostic to determine the students' baseline performance and allow for customized instruction and practice. I recommend it with no reservation."

Joelle Reyes

Administrative Assistant

"Our students gave positive feedback about the Cambridge curriculum materials, and we noticed improvement in the scores. For next year, we are already talking about extending the length of the course to include more class sessions so we can cover more content."

Amy Lawrence

Trio Assistant Director

"There was a lot of things that I learned in this class. I learned good testing strategies. I learned what was useful for me and to be more confident in myself when I take the test. I was able to find almost all the answers back in the passage."
